First Batch Report

**On the Humanitarian Intervention
In Sardauna LGA (Mambilla Plateau)**

Date: 1st July, 2017

Executive Summary

Following the communal conflict on the Mambilla plateau which erupted on 17/06/17 leading to loss of lives and properties across several communities as well as displacement of about 8385 persons according to the independent assessment report. Rural Health Mission Nigeria in collaboration with Mambilla Plateau citizens (Mambilla Plateau Legacy Group) launched a fundraising campaign to support the victims of the crisis. RHEMN team was immediately deployed to assess the most immediate needs of the victims which informed the first batch intervention that took place on 29/06/17 exactly seven days after launching the fundraising campaign. The relief materials was procured and distributed directly to victims in the camps and the affected communities and where there are no identified camps, it was done house-to-house.

Introduction

The fundraising effort yielded result within 9 days of campaign when ₦777000.00 was received from 26 donors. RHEMN team was deployed immediately to deliver the first batch of relief materials to the victims with most urgent needs. Only 14 out of 23 identified camps were visited in this batch due to limitation of funds and cost of logistics. The items distributed include; Rice, noodles, detergents etc. While we focused mostly on food and other basic items supply, we also rendered skeletal health services at the Emir's palace camp on the last day of our distribution. There were serious challenges in accessing the hard-to-reach communities due to topography, poor road infrastructure and weather condition.

Objectives

1. To assess the most immediate needs of the victims
2. To provide the most immediate needs directly to victims as soon as possible
3. To plan a sustainable humanitarian intervention for the victims

Method of Intervention

The relief materials were distributed house-to-house and directly to the victims. There were also skeletal medical services in some selected camps.

Implementation task

Need Assessment: An independent team of Rural Health Mission Nigeria was raised to quickly assess the most immediate needs of the victims for effective planning. The assessment went round all the affected communities and the following were the key findings: 8 out of 11 wards were affected comprising of about 65 communities. 23 IDP camps were identified with about 8385 displaced persons living in the camps. Out of that number 3375 are children below 12 years, 2850 are women and 1930 are men. The most immediate needs identified were food supply, water, sanitation and basic healthcare services. Below are the identified affected communities and the population

Beneficiaries

S/N	Community	Children	Women	Men	TOTAL
Mbanga Ward					
1	Mbamnga	300	220	180	700
2	Bang 3 corner	260	200	100	560

Total		3375	2850	1930	8385

Distribution of Relief Materials

The distribution was base on population and urgent needs. 14 out of 23 camps were selected as indicated below.

Ward/Camp/Population	Items Supplied	Units	Quantity Supplied
Ward: Mayo-Ndaga Camp: Njawai and Pappa/Kila	Rice	Bag	5 bags
	Noodles (Spagetti)	Carton	2 Cartons
	Maggi	Packets	3 packets

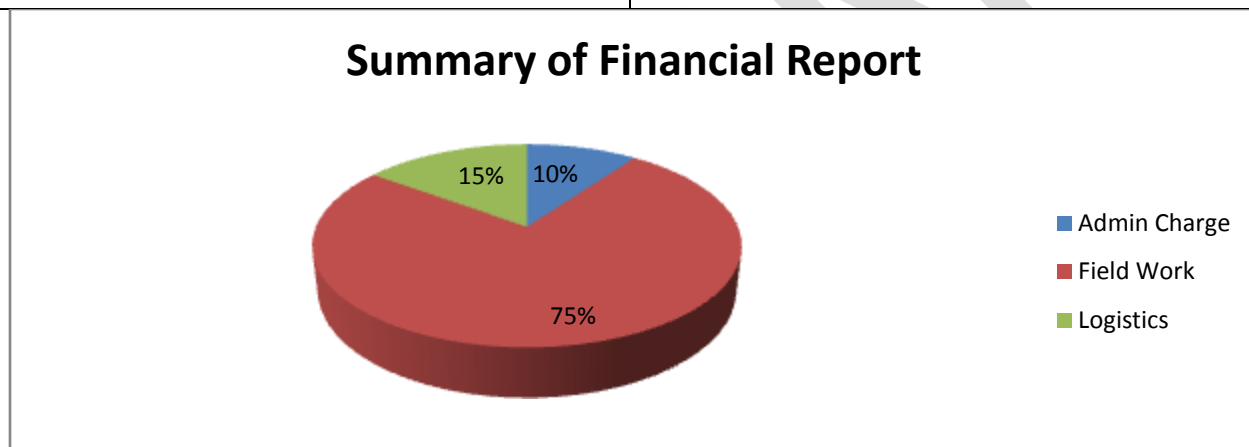

Population: 1400	Palm Oil	Liters	8 liters
	Salt	Sachet	3 sachet
	Soap	Bar	22 bars
	Omo	Carton	2 Cartons
	Pomade (Vaseline jelly)	Pieces	32 pieces
Ward: Titong Camp: Tunga Dan-Maina and Labbare Population: 500	Rice	Bag	4 bags
	Noodles (Spagetti)	Carton	2 cartons
	Maggi	Packet	2 Packets
	Palm oil	Liter	8 liters
	Salt	Sachet	2 Sachets
	Soap	Bar	18 bars
	Omo	Carton	2 Cartons
	Pomade (Vaseline jelly)	Pieces	20 pieces
Ward: Nguroje Camp: Galadima and Umaru CID Population: 1910	Rice	Bag	8 bags
	Noodles (Spagetti)	Carton	3 cartons
	Maggi	Packet	5 packets
	Palm oil	Liter	12 liters
	Salt	Sachet	9 sachets
	Soap	Bar	33 bars
	Omo	Carton	3 cartons
	Pomade (Vaseline jelly)	Pieces	46 pieces
Ward: Gembu A & B Camp: Emir's palace, Vertinery Qtrs and Leme Population: 745	Rice	Bag	7 bags
	Noodles (Spagetti)	Carton	3 cartons
	Maggi	Packet	4 packets
	Palm oil	Liter	12 liters
	Salt	Sachet	11 sachets
	Soap	Bar	32 bars
	Omo	Carton	3 cartons
	Pomade (Vaseline jelly)	Pieces	37 pieces
Ward: Mbamnga Camp: Mbamnga & Bang 3 corner Population: 1260	Rice	Bag	5 bags
	Noodles (Spagetti)	Carton	2 cartons
	Maggi	Packet	4 packets
	Palm oil	Liter	8 liters
	Salt	Sachet	4 sachets
	Soap	Bar	21 bars
	Omo	Carton	2 cartons
	Pomade (Vaseline jelly)	Pieces	32 pieces
Ward: Kabri Camp: Mayo-dule & Dorofi Population: 1010	Rice	Bag	5 bags
	Noodles (Spagetti)	Carton	2 cartons
	Maggi	Packet	3 packets
	Palm oil	Liter	8 liters
	Salt	Sachet	3 sachets
	Soap	Bar	18 bars
	Omo	Carton	2 cartons
	Pomade (Vaseline jelly)	Pieces	20 pieces

Medical Services

Health challenges were identified in some of the camps including; Nguroje, Mayo-Ndaga, and Gembu. While in Gembu at the Emir's palace camp, skeletal health services was provided. Two children treated for acute diarrhoea, 6 treated for acute malaria infection and 84 other screened and provided with prophylactic antimalarial doses. Minor complains such as mild headache, sleeplessness was also addressed.

Financial Report Summary for first batch

Total Raised	₦799500.00
Total Spent	₦716740.00
Total balance	₦82760.00

Expenditure summary

S/N	Expenses	Quantity	Amount
Items Purchased and transportation			
1	Rice	35 Bags	₦192500.00
2	Noodles (Spagetti)	14 Cartons	₦47600.00
3	Maggi	1 carton	₦8400.00
4	Palm oil	Palm oil	₦33600.00
5	Soap	5 Cartons	₦22500.00
6	Omo	14 Cartons	₦25200.00
7	Salt	1 Bag	₦2800.00
8	Pomade (Vaseline jelly)	5 Cartons	₦22500.00
9	Transportation of items to all the 13 camps	-	₦76850.00
10	Medical Supplies & drugs	-	₦6450.00
Volunteer personnel and other expenses			
11	Need assessment and report	-	₦20200.00
12	Printings and communications	-	₦11520.00
13	Feeding fee for field volunteers	-	₦18420.00

14	RHEMN Volunteer transport to Gembu	To and fro	₦30480.00
15	Local running of the implementation team		₦9000.00
16	Feeding fee for the implementation team	-	₦8770.00
17	Risk allowance for all volunteers	-	₦100000.00
18	Admin charges	10% of total raised	₦79950.00
	Total		₦716740.00

Challenges

1. Poor access roads to the affected communities, weather and topography.
2. Total neglect of the health aspect in all the camps
3. Poor coordination of the refugees as some of them are scattered in the communities making it difficult to see them and assess their needs
4. Lack of adequate funds

Recommendations

1. Organize all refugees in a common location for easy access, planning and intervention
2. Ensure high state of hygiene, sanitation and disease surveillance and prevention
3. Set up mobile clinics in some selected camps with high risk factors to provide at least two (2) hour medical services daily.

Conclusion

The overall project was a complete success as all items purchased according to the recommendation of the need assessment team were delivered directly to beneficiaries without third party involvement. The few challenges encountered include; access road network, limited funds, poor refugees coordination among others. There is need for second batch intervention to reach other areas and sustain the areas already visited.
