The importance of effective leadership in healthcare is becoming increasingly apparent with a driven emphasis on transparency, public reporting, improve health financing and operational outcomes of healthcare system. Although the need to improve quality and efficiency in healthcare exists, healthcare leaders continue to struggle in achieving and sustaining organizational success. There remains untapped potential for leveraging sustainable quality outcomes and enhanced efficiencies through changes of approaches in health care, whether it's an innovative treatment, new financing constraints, or a

growing focus on the health of the population.

The Nigeria Health Leadership conference is a multi-professional gathering designed to facilitate the sharing of knowledge and experience of Healthcare Management & workforce; skills through Workshops, Symposiums, Panel Discussions and Presentations. The conference offers unique opportunities to learn the latest improvement, ideas, connect with like-minded colleagues, and generate momentum for change in our organizations and communities.

Nigeria Health Leadership Conference 2019

This conference will attract stakeholders & participants from all fields related to healthcare to discuss and proffer practical, workable and actionable solutions to the challenges of healthcare leadership in Nigeria. The conference aims to reset the Nigerian healthcare system and structures to inject efficiency & effectiveness into the system.

The THEME

The Challenges of leadership and management in the Nigeria healthcare system

Sub-themes

- * The impact of leadership on the healthcare environment
- * Leadership & Accountability in health financing

The Objectives

1. Serves as a platform for exchange of ideas, networking opportunities among stakeholders
2. Showcase research and best practices in wide range of disciplines.
3. Discuss quality initiatives that can be applied in the practice
4. Encourage collaboration among professionals and entrepreneurs.
5. To enable participants gain direct access to a core audience of professionals and decision makers
6. To increase visibility of healthcare innovations through branding and networking.
7. Gain practical and diverse skills in leading teams and organizations to success.

Details of the Activities

The conference will begin with a 2-day workshop followed by a day conference on the 3rd day.

The 2-day Workshop

The workshop will be a highly resourceful capacity building training in leadership facilitated by an expert in leadership training. Participants will learn practical skills in lead-

Nigeria Health Conference 2019

ing teams and organizations to success. Participants will complete an intensive 2-day course of 10 modules to earn a prestigious certificate.

Presentation

There is going to be vastly experienced speakers and experts to share their knowledge on the topic of the conference. Par-

ticipants will have the opportunity to engage the speakers and share their experiences.

Panel Discussion

Well experienced health experts and entrepreneurs in the health sector with innovative solutions and records of accomplishment will lead the discussion panel. This will facilitate knowledge sharing and will inspire innovation and attract investment in the health sector.

Networking session

Participants will have the opportunity

Details continue...

to engage and learn from each other during the networking session.

Inventor/innovators exhibition

Inventors and innovators will have the opportunity to exhibit their products and services at the exhibition gallery and also to display their talents, advertise their products and share their innovative research.

Expected outcome

This conference is expected to arouse consciousness around improving the overall health sector, build profession-

als capacity and confidence thereby improving patient outcome. It will also be a platform to discuss policy issues affecting

Participant Categories

The conference targets **Clinicians, Public health officers, communication specialists, investors, health CSOs /NGO's, foundation leaders, researchers, academicians, advocates, policy makers and others.**

Sustainability

This conference will be an annual event and policy makers, government agents, CSO/NGOs and other interested partners will be fully engaged in this event. If the outcome of the event is positive, it will now become a permanent platform for all these partners to engage each other. By this everyone will take ownership of the event and the conference will attract individual commitment to work to-

gether to ensure that it holds annually.
