EXECUTIVE SUMMARY

PROJECT BACKGROUND (PURPOSE)

“Health for all by all” is a Rural Health Mission Nigeria project which aimed at providing short term health intervention which encourages community participation and utilizing local available resources to alleviate health burden in rural or hard to reach and underserved communities. The purpose of this medical/surgical outreach is to provide short term medical/surgical intervention and reduce out of pocket expenses to less privilege people in Gombe.

The Gombe medical outreach was organized in collaboration with the Nigerian Muslim Forum UK who provided the funds for the entire program. Their medical team was led by Drs Ahmad Mukhtar a consultant colorectal surgeon and Adamu Sambo a consultant pediatrician.

PROJECT OBJECTIVES

1. To create awareness on infectious diseases such as lassa fever and general hygiene through health talk.
2. *Promote public health behavioral change toward healthy living.*
3. Treatment of minor illnesses and surgical conditions.
4. Enhance access to health to underserved and less privileges.
